A Special Thanks to 2012 *JOSPT* Contributors

GUY G. SIMONEAU, *PT, PhD, ATC*
Editor-in-Chief
J Orthop Sports Phys Ther 2012;42(12):982-984. doi:10.2519/jospt.2012.0112

Please join me in recognizing our many colleagues who contributed to the editorial process of *JOSPT* over the past 12 months: authors, associate editors, the International Editorial Review Board, and manuscript and musculoskeletal imaging reviewers. It is only through the commitment, talent, and knowledge of these individuals that we can continue to publish the high-quality physical therapy research that leads to more effective clinical practice and improved patient outcomes. Thank you!

AUTHORS

Congratulations to the authors of manuscripts published in *JOSPT* this year. We are clearly indebted to those individuals who submit their work to the scrutiny of the review process and of the readership, with the ultimate goal to continue providing evidence to better assess and treat our patients.

The authors of guest editorials and book reviews are listed here. Both groups play a vital role in providing new perspectives and useful information to the readership.

EDITORIAL TEAM

The members of the Editorial Board (2 editors, 16 associate editors, and 59 members of the International Editorial Review Board) are listed on the masthead of the *Journal* each month.

In this editor's note, I would like to especially recognize the vital contributions made by the manuscript reviewers, who share their expertise and time to provide feedback to the authors. This exchange, although at times challenging and always time consuming, invariably improves the final published product. All manuscript and musculoskeletal imaging reviewers who contributed to the peer-review process in 2012 are listed below.
